

LOG IN CARDS

Give each student a card with everything they need to sign in to Amira on their own.

1 Choose a card style

Labeled cards have spaces for student name, username, and password. Blank cards have open spaces you can customize. Both come in English and Spanish.

2 Fill in each card

Add student login information to the labeled cards, or use the blank cards to show your own login requirements and steps.

3 Print and cut

Print the pages you need and cut out the cards. Laminate them if you'd like them to last all year.

4 Keep them handy

Store the cards where students can reach them at the start of Amira time, and keep login details private.
