

Summer School with Amira

Use this checklist to plan, launch, monitor, and wrap up Amira use during summer school.

Before Summer School

New to Amira?

Complete the self-paced [Amira Academy](#) course(s) for the product(s) your district uses over the summer.

Download your data before re-rostering.

Before making any roster changes for summer school, download your current data. [Click here](#) for more information on EOY data downloads and rollover.

Prepare access, devices, and rostering.

Confirm teacher/student access, prepare devices, and [check microphones](#). If students need to be re-rostered for summer school classes/teachers, email support@amiralearning.com. If you use HMH rostering, contact your HMH representative.

Plan your routine.

Decide when students will use Amira. Aim for **10–15 minutes per day** or **30 minutes per week**.

[Sample Summer School Schedules](#)

Start of Summer School

Introduce Amira to students.

Use [decks/videos](#) to show students how to log in, start practice, read clearly, and use Amira independently.

Review SY25–26 data and assess if needed.

If available, review students' EOY assessment data (via Benchmark or Class Progress Reports) or administer a beginning-of-summer Benchmark assessment to understand each student's starting point.

[How To: Assign an Assessment](#)

During Summer School

Use Progress Monitoring (PM) assessments — not Benchmarks.

This keeps school-year Benchmark scores from being overwritten. PM assessments also account for monthly norms, so results will accurately reflect where students are at that point in the year. For example, June pre-tests and July post-tests will be scored for the right time of year and show summer growth more clearly.

Monitor Usage and adjust support.

Review usage, growth, and skill needs. Use the data to adjust groups, reteach skills, and target support.

Recommended Reports: [Usage Report](#) | [Progress Report](#) | [Skills Status Report](#)

Celebrate effort and growth.

Use trackers, posters, certificates, story challenges, or weekly goals to motivate students.

[Student trackers & class posters](#) · [Summer resources](#) · [Certificates](#)

End Summer School

Measure and share growth.

Use session data or administer an assessment to measure growth. Share progress with students, families, and next-year teachers.

Recommended Reports: [Parent Report](#) | [Progress Report](#) | [Student Summary Report](#)

Download data (again) before rollover.

Download student data at the end of summer school to capture student progress over the summer. Since Amira pulls student information directly from your rostering connection, if summer school rosters replace your current roster data, only those summer school students will appear in the platform.

Sample Summer School Schedules

Refer to these half-day and full-day sample schedules for ideas on how to incorporate Amira time into your daily summer school routine.

Half Day Sample Schedule

START	END	SUBJECT	AMIRA TIME
8:00AM	8:30AM	Arrival/Breakfast	✓ Early Arrivers
8:30AM	9:00AM	Morning Meeting/SEL	
9:00AM	9:30AM	Amira	✓ Whole Class
9:30am	10:30AM	Instructional Block #1	
10:30AM	11:00AM	Specials/Enrichment	
11:00AM	12:00PM	Instructional Block #2	
12:00PM	12:30 PM	Recess	
12:30PM	1:00PM	Lunch/Dismissal	

PRO TIP

Arrival is a great time for students to read with Amira. Instead of morning work, set up computers early and encourage early arrivals to log in and enjoy stories!

Full Day Sample Schedule

START	END	SUBJECT	AMIRA TIME
8:00AM	8:30AM	Arrival/Breakfast	✓ Early Arrivers
8:30AM	9:00AM	Morning Meeting/SEL	
9:00AM	9:45AM	Instructional Block #1	
9:45AM	10:30AM	Specials/Enrichment	
10:30AM	11:30AM	Recess & Lunch	
11:30AM	12:15PM	Instructional Block #2	
12:15PM	1:00PM	Literacy Centers	✓ Small Group
1:00PM	1:45PM	Specials/Enrichment	
1:45PM	2:15PM	Dismissal	

PRO TIP

Designate Amira time as a specific subject period for the entire class, or incorporate it as a small group station during center activities.
